### **WHO THEY ARE:**

Despite the incredible progress in technology, cancer still claims the lives of more children than any other disease. Pediatric cancer is every family's nightmare. Parents and children's lives are on "hold" – waiting, hoping, and searching for the cure. That's where the Dribble for the Cure comes in.

The Pediatric Cancer Research Foundation has dedicated itself to supporting research efforts to find the cure for pediatric cancer. With the help of University Athletic Departments, the Dribble for the Cure connects research dollars with local pediatric oncology hospitals. LATLC's funding will help support survivorship programs for these young patients.
